```c
#include <stdio.h>
#include <conio.h>
void main () {
    int m,n,i;
    clrscr();
    printf("Enter two numbers ");
    scanf("%d %d", &m, &n);
    if (m>n)
    printf("\n Error in input");
    if (m%2==0)
    i = m+2;
    else
    i = m+1;
    printf(" The even numbers between %d and %d are \n", m,n);
    for (; i<n; i+=2)
    printf("%d \t", i);
    getch();
}
```
